

INSTRUCTIONS for using the internet installation applications of the trial editions of SSI software products

1. Ensure that your copy of Windows is up-to-date using the following **URL**:
<http://www.microsoft.com/windows/downloads/windowsupdate/default.msp>
2. Use **Windows Internet Explorer 7 or 8** to open the **URL** for the internet installation application.
3. Click on the **Install** button.
4. Depending your internet security settings, the following Windows message box is loaded (**PLEASE BE PATIENT for this**):

5. Click on the **No** button.
6. Locate the following message in your internet browser application:

 This website wants to install the following add-on: 'install' from 'Scientific Software International, Inc.'. If you trust the website and the add-on and want to install it, click here.

7. Click on the message above and then select the **Install Active X Control...** option.
8. Follow the step by step installation dialogs (**PLEASE BE PATIENT!**)
9. When the installation is complete, the following Windows message box is loaded:

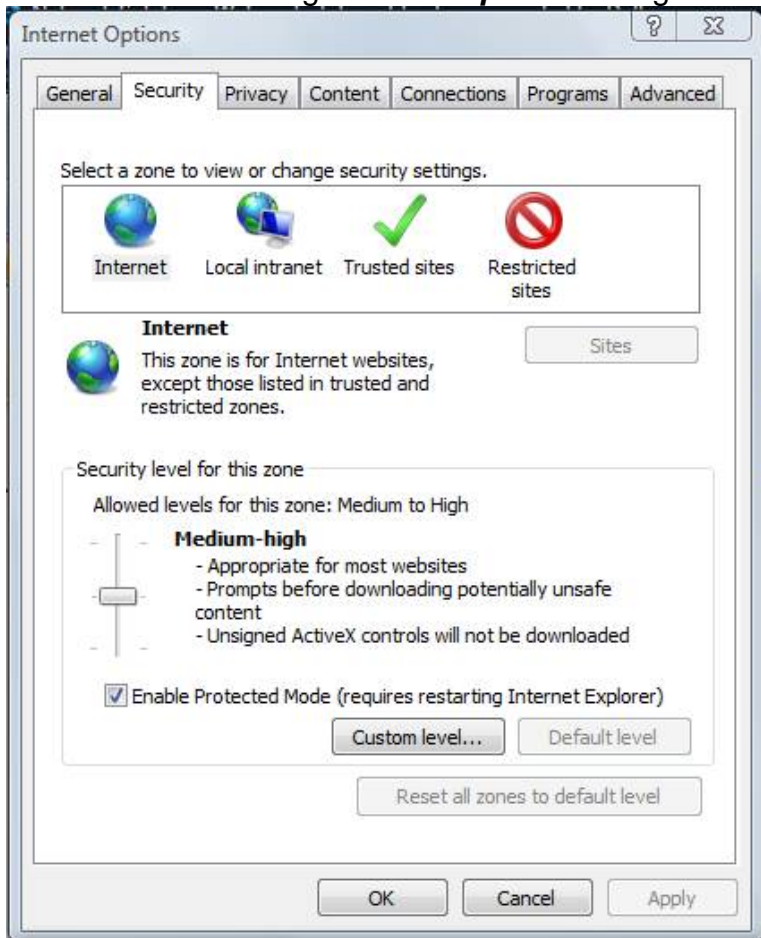

10. Click on the **Yes** button.

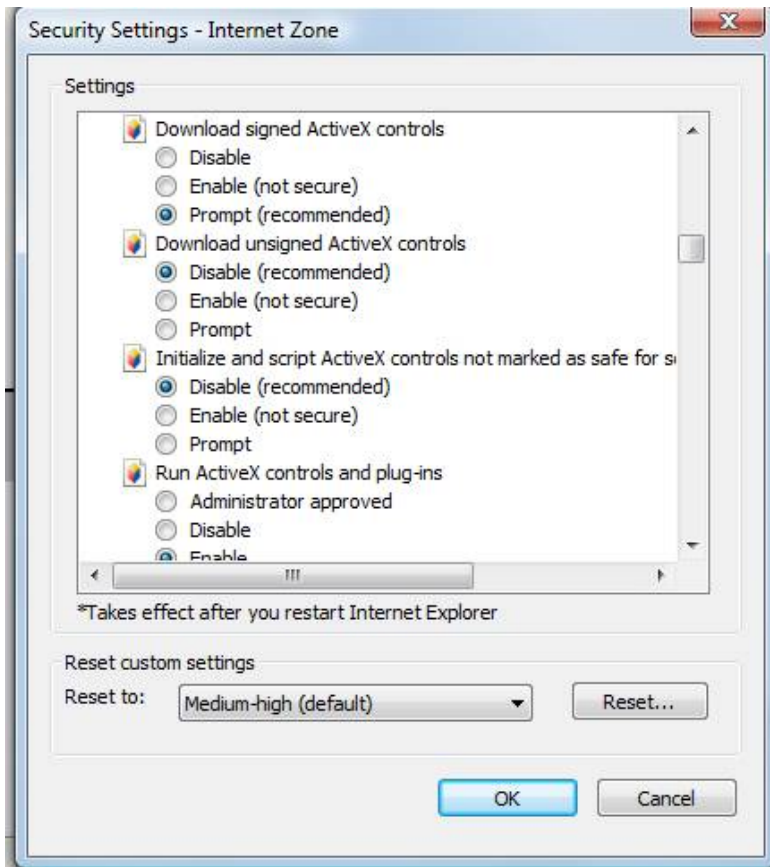

IMPORTANT NOTICE

If the Windows message box does not load, you will need to change the **Internet Options** of **Windows Internet Explorer 7 or 8** as follows.

- Select the **Internet Options** option on the **Tools** menu of **Windows Internet Explorer 7 or 8** to load the following **Internet Options** dialog box.

- Click on the **Custom level** button to load the **Security Settings – Internet Zone** dialog box.
- Scroll down to ensure that your settings for **Active X** controls are as shown below.

- Close **Windows Internet Explorer 7 or 8**.
- Retry the steps on page 1 using the **URL** for your internet installation application.

IMPORTANT NOTICE FOR IRT SOFTWARE PRODUCTS

If the trial edition of **BILOG-MG 3**, **MULTILOG 7**, **PARSCALE 4**, or **TESTFACT 4 for Windows** does not launch successfully after installation, please download and install the installation application **vcredist_x86.exe** from:

<http://www.microsoft.com/downloads/details.aspx?familyid=200b2fd9-ae1a-4a14-984d-389c36f85647&displaylang=en>

After **vcredist_x86.exe** is successfully installed, please restart your personal computer before launching **BILOG-MG 3**, **MULTILOG 7**, **PARSCALE 4**, or **TESTFACT 4 for Windows**.
